*You know how Johnny did on his tests...
But how well did fourth grade do?
What about the whole school?
Did we do better or worse than last year?*

This table compares the percentile scores of the top table to the previous year's results. In this case, the latest test results were better, on the average, by one percentile point.

* Positive or negative numbers indicate that this year's average is greater or less than last year's average by the given number of percentile points
Blank rows appear where a grade level has no students for either the current year or the previous year
